Hi Rob C

I'm going to be downtown tomorrow at 7am in the exec boardroom working on another plan that is required by noon.

I'm pretty sure that Rob B might be there too.

I can't make the call on the military but I support it based upon our need to get the trucks out of there if we don't have other options. Can you please add to your Tow plan a contingency that if tows are unavailable that the [REDACTED] needs to be installed to secure the entire area until tows are available.

Sorry man I can't be here to help...onto another plan...
K

Thank you Rob and Kevin,

Mark, we will need to discuss first thing re tow options with the military. We will need to meet with Sam Roberts. I have staffing working on getting our sworn members with DZ license and Sam connecting with MTO for assigning Inspectors.

Rob

Insp. Robert Bernier
Freedom Convoy Demo
Service Command Centre IC

Hello Insp

Thanks to Rob C for putting this together with limited info.

The plan cannot be finalized until we know what trucks we have available to tow and it may end up we have to use military vehicles (as indicated in the plan).

I'm going to ask Rob to continue with this first thing tomorrow morning to see if we have more movement on civilian tow options.

If we don't and the military is days away for an MOU, then I make two suggestions

1 – delay the operations until we have the tows in place

2 – we have logistics team source out [REDACTED] and circle the entire site until tow vehicles are available. This way we can reduce the footprint of officers required to hold the site.

For your consideration.

Rob please see if there is any further movement with tows first thing tomorrow and advise.

tk

Kevin

Kevin ,

Can you please take a look at this before sending it to Insp Bernier.

The plan lacks detail at this time due to the lot of unknowns relating to routes for the tows , who is going to tow etc.

Insp Bernier wanted the plan to request the use of military recovery equipment which appears to be our only avenue of hope for assistance .

Rob
